In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2025 and the Profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Information Other than the Financial Statements and Auditor’s Report Thereon

The Company’s Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexures to Board’s Report, Business Responsibility Report, Corporate Governance and Shareholder’s Information, but does not include the standalone financial statements and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance or conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the IND AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The financial statements have been prepared on an accrual and going concern basis. and liabilities and the disclosure of contingent liabilities, at the end of the reported period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

Net realizable value is estimated at selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale.

1.4) Cash flow Statement (Ind AS 7)

Cash flows are presented using indirect Method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

Bank borrowings are generally considered to be financing activities. However, where bank overdrafts which are repayable on demand form an integral part of an entity's cash management, bank overdrafts are included as a component of cash and cash equivalents for the purpose of Cash flow statement.

1.5) Accounting Policies, Changes in Accounting Estimates and Errors (Ind AS 8)

Accounting Policies, Changes in Accounting Estimates and Errors

The financial statement have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under the companies (Indian Accounting Standards) Rules, 2015, as amended from time to time.

The company selects and applies its accounting policies consistently for similar transactions, events, and conditions, unless Ind AS specifically requires or permits categorization and application of different policies for different transactions.

Changes in accounting policies are made only if:

- Required by an Ind AS; or
- Such a change results in the financial statement providing more reliable and relevant information.

When a change in accounting policy is applied:

- It is accounted for retrospectively unless otherwise stated.
- The comparative figures for prior periods are restated, and
- The cumulative effect, if any, is adjusted in the opening balance of retained earnings.

Changes in accounting estimates (e.g., useful lives, bad debt provisions) are recognized prospectively:

- In the period of the changes, if the change affects only that period; or
- In the period of the change and future periods, if the change affects both.

Prior Period Errors

Material prior period errors are corrected retrospectively in the first set of financial statements approved after their discovery by:

- Restating the comparative amounts for the prior period(s) presented; or
- If the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities, and equity for the earliest period presented.

The nature of the error and the amount of the correction are disclosed in the notes to accounts.

1.6) Provision for Current Tax and Deferred Tax (Ind AS 12)

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the company operates and generates taxable income.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred Tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognized for all taxes temporary differences.

Deferred Tax assets are recognized to the extent that it is probable that taxable profit will be available against which then deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Where there is deferred arising from carry forward of unused tax losses and unused tax created, they are recognized to the extent of deferred tax liability.

The carrying amount of deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

1.7) Property, Plant and Equipment (Ind AS16):

Property, plant and equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of Profit and Loss during the period in which they are incurred.

Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of Profit and Loss. Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Depreciation is provided on a pro-rata basis on the straight-line method based on estimated useful life prescribed under Schedule II to the Companies Act, 2013.

Free hold land is not depreciable, hence no depreciation charged to statement of profit and loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Type of Assets	Period
Buildings	30 Years
Plant & Machinery	15 Years
Electrical Installation	10 Years
Furniture & Fittings	10 Years
Vehicles	8 Years
Office Equipment	5 Years
Computer & Peripherals	3 Years

1.8) Employee Benefits: (Ind AS 19)

Short-term Employee Benefits

A liability is recognized for short-term employee benefit in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service. The entity is operating through Indowind Energy Gratuity Fund for all payments related to gratuity and the related trust accounts is yet to be maintained.

Defined contribution plans

Retirement benefit in the form of a provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund and superannuation fund. The company recognizes the contribution payable to the provident fund scheme as an expense when an employee renders the related services. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Defined benefit plans

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Other long term employee benefits

Liabilities recognized in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the company in respect of services provided by the employees up to the reporting date. Liability for un-availed leave, considered to be long-term, is carried based on an actuarial valuation carried out at the end of each financial year.

1.9) Foreign Currency Transaction (Ind AS 21)

(a) Transactions in foreign currencies are initially recorded by the Company at the functional currency spot rates at the date at which the transaction first qualifies for recognition. However, for practical reasons, the Company uses an average rate, if the average approximates the actual rate at the date of the transaction.

b) Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in profit or loss.

c) Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

1.10) Impairment of Assets: (Ind AS 36)

Assessment for impairment is done at each Balance Sheet date as to whether there is any indication that a non-financial asset may be impaired. Indefinite life intangibles are subject to a review for impairment annually or more frequently if events or circumstances indicate that it is necessary.

If any indication of impairment exists, an estimate of the recoverable amount of the individual asset / cash generating unit is made. Asset / cash generating unit whose carrying value exceeds their recoverable amount are written down to the recoverable amount by recognising the impairment loss as an expense in the statement of Profit or Loss.

1.11) Provisions and Contingent Liabilities: (Ind AS 37):

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

1.12) Segment Reporting (Ind AS 108):

The accounting policies adopted for the segment reporting are in line with the accounting policies stipulated. The Company primarily operates in single business segment which is Steel Tubes (Black, GI Pipes & Stainless-Steel Pipes), and accordingly there is no primary segments to be reported as per Indian Accounting Standard 108 "Segment Reporting".

1.13) Revenue Recognition (Ind AS 115):

Revenue from the sale of goods is recognized when all the significant risks and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract, there is no continuing managerial involvement with the goods and the amount of revenue can be measured reliably. The Company retains no effective control of the goods transferred to a degree usually associated with ownership and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as Goods and service tax etc.

Revenue from sale of products manufactured, sale of products traded and sale or supply of services is recognized when practically all obligations connected with the transaction risks and rights to the buyer have been fulfilled. Revenue is measured at fair value of the consideration received or receivable, after deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as GST etc.

Interest income is recognized using the effective interest rate (EIR) method.

Dividend income on investments is recognized when the right to receive dividend is established.

1.14) Leases (Ind AS 116):

Leases in which a substantial portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments and receipts under such leases are recognised to the Statement of Profit and Loss on a straight-line basis over the term of the lease unless the lease payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, in which case the same are recognized as an expense in line with the contractual term. In accordance with the standard, the company has recognized Right-of-Use (ROU) assets and corresponding lease liabilities for all applicable lease arrangements, except for short-term leases of less than 12 months and leases of low-value assets which have been accounted for on a straight-line basis over the lease term. The lease liabilities have been measured at the present value of future lease payments, discounted using the company's incremental borrowing rate. The ROU assets have been measured at cost, comprising the amount of the initial lease liability, lease payments made at or before the commencement date, and any initial direct costs, adjusted for lease incentives received. The ROU asset is depreciated on a straight-line basis over the lease term, while the lease liability is reduced over time using the effective interest method. The company has also appropriately accounted for refundable security deposits by discounting them to present value and recognizing the difference as a component of the ROU asset. The accounting treatment and disclosures are in accordance with the principles and requirements of Ind AS 116.

1.15) Financial Instrument: (Ind AS 109):**Financial Assets:**

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument. On initial recognition, a financial asset is recognized at fair value, in case of financial assets which are recognized at fair value through profit and loss (FVTPL), their transaction costs are recognized in the statement of profit and loss. In other cases, the transaction costs are attributed to the acquisition value of the financial asset.

Financial assets are subsequently classified as measured at

- Amortized cost
- Fair value through profit and loss (FVTPL)
- Fair value through other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

Trade Receivables and Loans:

Trade receivables are initially recognized at fair value. Subsequently, these assets are held at amortized cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

Equity Instruments:

All investments in *equity* instruments classified under financial assets are initially measured at fair value; the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. A fair value change on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI.

Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss. The Company does not have any investments in equity instruments as on balance sheet date.

Derecognition:

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

Impairment of Financial Asset:

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category. For financial assets other than trade receivables, as per Ind AS 109, the Company recognizes 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall. The impairment losses and reversals are recognised in Statement of Profit and Loss.

Financial Liabilities:

Initial recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss is measured at fair value with all changes in fair value recognized in the Statement of Profit and Loss.

Derecognition:

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

The Company has placed certain security deposits with statutory/government authorities such as electricity boards and telephone service providers, which are non-interest bearing and are refundable on demand or upon termination of service. These deposits are classified as financial assets in accordance with Ind AS 109 - Financial Instruments.

As these deposit do not carry any interest and are typically retained over the long term, they technically fall within the scope of fair valuation at initial recognition. However, based on a management assessment, the impact of discounting these deposits to present value is not material, considering the nature, amount, and expected duration of these deposits.

Accordingly, the company has elected to carry these deposits at their transaction value (cost) without applying fair value discounting, in line with the materiality concept under Ind AS 1 - Presentation of financial Statements.

8) Earnings Per Share and Diluted Earnings Per Shares: (Ind AS 33)

Basic earnings per equity share is calculated by dividing the net profit or loss attributable to the equity shareholders of the company by the weighted average number of equity shares outstanding during the reporting period.

Diluted earning per equity share is calculated by adjusting the net profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares, if any.

The earnings per share calculations are made in accordance with Ind As 33 - Earnings Per Share, and are presented separately for:

- Basic earnings per share
- Diluted earnings per share

Where there is a net loss attributable to equity holders, the impact of potential equity shares is anti-dilutive and hence, the diluted earnings per share is equal to the basic earnings per share.

The following is a reconciliation of the equity shares used in the computation of basic and diluted EPS:
